

Don't forget to lock your screen when you leave your desk.

Change your password into a passphrase.

Use a unique password for each of your accounts.

Use a password manager.

Remember to consult with your IT specialist about any new apps.

Think twice before clicking on links in your emails.

When it comes to strangers in the office, trust but verify.

Mind what you keep on your desk (and in your trash).

Avoid connecting to public Wi-Fi networks.

During video calls, only show what needs to be seen.

Always be aware of who is listening or looking over your shoulder.

Take 30 minutes to set up your home Wi-Fi router. It's worth it.

Find out if your login credentials were ever compromised.

Be careful about what you share on social media.

Sharing is caring. But not when it comes to work devices.

Know what to do when you lose your work device.

Don't delay any updates.

Only use designated channels for work-related communication.

Link-sharing can be a risky operation.

Don't be afraid to ask your IT specialist for answers.
